

Guidelines for Popularization of Agril Machinery / Implements / Equipments

The state Agriculture Policy -2013 provides different pattern of Assistance for different type of Machinery and Implements . This subsidy is the maximum for any individual machinery / implements grouped under different category. The subsidy for farm Mechanization is being taken up from different **Centrally sponsored schemes , RKVY** etc and **a state plan scheme** namely “**popularization of Agril Implements ,equipments and diesel pumpsets**” .The subsidy pattern is also being communicated from Govt of India time to time. **As per latest pattern of assistance , if required subsidy from State plan scheme will be provided over and above the Govt of India subsidy.**

When the subsidy for sanctioned programme from GOI on different machinery implements / equipment is insufficient as per the demand of farmers of state , then the **full subsidy as per latest pattern of assistance** for these machinery / implements / equipments will be met solely from the above referred state plan scheme. That to say , pattern of assistance for any particular machinery / implement / equipment on farm mechanization includes the GOI subsidy for that particular machinery / implement / equipment and also may be met from the solo State Plan Scheme.

The state Govt has framed the following guidelines for smooth implementation of the scheme .

A. PATTERN OF ASSISTANCE .

The machinery / implement of different firms so approved by the State Level Technical committee are come under subsidy fold as per the new agriculture policy -2013. The list of the machinery with pattern of assistance is in **annexure-I** .

B. EFFECTIVE REPLACEMENT PERIOD OF THE MACHINERY /

IMPLEMENTS / EQUIPMENTS

A beneficiary who has availed subsidy for a particular machinery/ implement earlier can also be eligible for subsidy for that particular machinery / implement as per the stipulated replacement period of the machinery mentioned below.

1. **Tractor/Combine harvester-** **5 years**
2. **Power tiller/Reaper/Transplanter-** **3 years**
3. **Other machineries/implements /
Equipments except manual and
bullock drawn implements . - 2 years**

C. REGISTRATION OF SUPPLIERS / DEALERS

The procedure for implementation and procurement of above mentioned machinery / implements concerning the different schemes (Where subsidy is to be released by **Approved bank**) will be made as per the stipulations .

As a preliminary step, dealers of SLTC approved manufacturers of different machineries are required to register themselves at [http:// as1.ori.nic.in /agrisnetodisha](http://as1.ori.nic.in/agrisnetodisha) . Besides filling the scheduled registration form available on the dealer registration link of the Farm mechanization Home page, they have to furnish documents like up to date VAT clearance and the authorization certificate of the Manufacturer/suppliers. The above two documents would be verified by the DDAs of the 30 districts and after confirmation their mobile numbers would be registered and they can log in to the system with their user ID and password. In case of tractors, the respective District Managers, OAIC would be registered as dealers and by default they would be the dealers for all other implements as reflected above. In case of a particular Manufacturer having same dealer for all the 30 districts of Orissa, the required papers are to be checked and confirmed by the Engineering cell of the Directorate. **annexure -II**

D. CONFIRMATION OF SUPPLIERS / DEALERS

When registration of dealers is over, the DDAs of the 30 revenue districts will confirm after verifying their VAT clearance and Manufacturer authorization certificate by clicking on the confirm button. In case of sole distributor for entire odisha (only the source companies) will be confirmed by the Joint Director of Agriculture engineering wing of the Director of Agriculture and Food Production, Odisha, Bhubaneswar. A sample format of the confirmation page is given in **annexure -III**.

E. UPLOADING OF TARGET

DAO wise target of different machinery / implements which come under **on line permit system** for different category are uploaded in to the domain of respective DAO time to time by the **Engineering wing of the Directorate / Deputy Director of Agriculture** as per demand from the field .

F. ELIGIBILITY OF FARMERS

Every individual farmer irrespective of his or her land holdings / registered farmer group like Pani panchayat , Vana Surakshya Samiti etc / Registered NGOs / Co-operative societies etc engaged on agricultural farming are eligible for the scheme. In case of a group, a nominated individual will be the applicant.

G. APPLICATION FORM and MODE OF APPLICATION

The application can be down loaded from <http://as1.ori.nic.in / agrisnetodisha> and is also available at block and district level agriculture offices. The above referred applicants shall apply in the local DAO circle in the prescribed application Form (A sample is given below).The application will be received in the office at any working day and an **acknowledgement** will be provided to the farmer / group reflecting his **serial number** for that particular machine. Farmer / group will submit the ID proof, Bank consent letter (for bank finance cases) along with the application form is in **Annexure-IV**

H. GENERATION OF PERMIT

Prior to issue of of permit, all applications will be scrutinised at DAO office . After scrutiny all the eligible applicants for different machinery / implements will be short listed and will be ready for issue of permit from the available target (from different category) of particular machinery / implement as per 1st come 1st serve principle .

DAO will log in through their User ID and Password and fill up the blank fields in the application form on line (a sample form is given below) as per the serial number. **Annexure-v**

The system in turn will generate the permit order as per the availability of target. The permit order would be generated on 1st week of every month and if required 2nd permit date would be preferably in the 3rd week of the month. Normally the quarterly permit calendar is communicated to the field by the respective

scheme officer. The validity of the supply order for self finance case is **30 days** and for Bank finance case is **60 days** .**There would be no revalidation of any permit.** The farmer with a lapsed permit will have to apply again for a permit. After generation of the permit order, the DAO will sign on the hard copy and hand over it to the beneficiary.

I. PROCUREMENT OF THE MACHINERY / IMPLEMENT

After generation of permit, the computer will send SMS and E-mail to the concerned registered vendor / supplier for that particular machine in the respective DAO circle . The vendor would contact the prospective beneficiary as per the SMS and sell the machine keeping the non subsidy amount in case of all above mentioned implements. But in case of combine harvester , the vendor can sell the combine harvester at the full cost as the subsidy involvement is high, and the subsidy would be released to the beneficiaries' bank account. **In all other cases, the vendor must sell the machinery after deducting the subsidy cost from its price.** After the delivery of the machine, the registered vendor will log in through their User ID and Password and fill up the machine details in the below mentioned sample format. The vendor must put his seal in favour of supply in the permit order.**The machinery must be delivered within the stipulated permit period. annexure -VI**

J. INSPECTION OF MACHINERY / IMPLEMENTS

After filling up the machine details by the vendor, the system will send the SMS and E-Mail to the concerned AAE (Inspector) for verification. At first, AAE will check the machinery/implement with respect to SLTC approval. If the verification is in conformity with reference to the details in the SMS and E-mail, then the AAE will click the "OK" button. For "not OK" cases, the reasons must be specified. A sample verification form is mentioned below. After verification AAE will up load the photo of the machine, himself along with the beneficiary. The verification should be conducted within 15 days after receipt of the SMS and E-mail by the AAE .This is shown in annexure -VII

Even after sale, the AAE has a big role for optimum utilization as well as performance of the machine. He will advise the farmer regarding matching implement best suited to the tractor according to

the width, HP, draft and PTO RPM. In case of power tiller, AAE should interact with the farmer for maximum utilization of the machine by way of using suitable attachments. He will interact with the farmer on adjustment, repair and maintenance of the machine. For popularization of upcoming machine, AAE will brief the farmer regarding the use; cost benefit etc.

K. SUBMISSION OF SUBSIDY CLAIM BY THE VENDOR

The supplier/ vendor will submit the following documents directly to the approved bank.

- Subsidy claim application
- Copy of the invoice / bill
- Original permit

He must **quote the permit number** on every document prominently. A sample copy of the subsidy claim application form is mentioned below.

L. RELEASE OF SUBSIDY .

For the release of subsidy the bank has been selected in the process of EOI and memorandum of Understanding has been effected to that count between designated bank (Now Bank of India , Sailashree Branch) and Director of Agriculture and Food Production of Odisha, Bhubaneswar .

Approved bank will follow 2-step verification for release of subsidy.

- In Step -1 Bank will scrutinize all the documents physically and online given by the vendor for release of subsidy.
- In Step -2 Bank will verify the scrutiny document again related to the financial part and then finally release the subsidy to the Farmer/Vendor through RTGS / NEFT only.

Approved bank after receipt of subsidy claims will release the subsidy directly to the supplier (for all the machineries / implements) within 3-7 (three - seven days) of receipt of correct documents from the registered vendor . For Combine Harvesters, depending on the mode of finance and the options exercised by the farmer, the subsidy can be paid either to the vendor or to the farmer in to the bank which financed the purchase and it is shown in Annexure-viii .

**Guide line for Manual / Bullock drawn implements
and all type of Power threshers**

All type of power threshers would be popularized as per prevailing guideline for manual bullock drawn implements . Subsidy amount will be placed at Executive Engineers / Range AAEs for release of subsidy towards manual / bullock drawn implements and power threshers . Normally power threshers are hand operated winnowers fitted with a electric motor. Both the implements are manufactured by the same registered SSI (Small Scale Industries) units and procured through the OAIC (Odisha Agro Industries Corporation) , OSIC (Odisha Small Industries Corporation) and Development Engineer , Odisha Farm Machinery Research & Development Center .

NB-Director of Agriculture , as the nodal agency for successful implementation of the scheme may revise the format and guide line with inclusion / modification / deletion through executive order looking to the changing circumstances.
